Read the following passage carefully and answer questions 26- 38

Joseph is a farmer and a fisherman in Kisumu town. He is married to two wives and has ten children.

In the early morning, Joseph goes fishing using his dhow with his two sons. They normally return home by eight in the morning. On a normal day they catch around fifty fishes which they take to the market.

In the afternoon he joins his wives in the farm. In this farm they grow cotton, peanuts and maize. They sell cotton to get money for paying school fees for his children.

George is a neighbour to Joseph and a good friend. In the evening they are always together playing Ajua and drinking sodas in the nearest shopping centre.

Read the passage below and answer questions 39-50

Among the flying animals, the bat is the most interesting animal. The bat is neither a bird nor an animal. Looking at it closely, the bat looks like a flying rat. It flies especially at night in a group of many bats. Bats fly at night not because they can see. No! the truth about bats is that they are partially blind. They make use of their high sounds they produce to move in the air as well as locate their prey

Bats are carnivorous in nature. They feed on insects and other small animals. However, some bats feed on fruits. All bats give birth to live young ones who suckle.
